through the verandah into the basement, where it left traces of its passage. The millies on the west side of the building had done poorly, wrenched and a tile smashed in the floor. There were other portions of the building touched, which may confirm the opinion that more than "a bush" was precipitated on the building. A leather covered chair had its cover ripped open and the stuffing partially burnt, one of its legs had disappeared, probably by human means, as the numbers of "Chines" who visited the scene were anxious to secure a portion of any article struck by the electric fluid, it be used as "medicine."

The *Japan Mail* writes:—We have not hitherto alluded to the very interesting case of the late Dr. G. F. Verbeek, who with his family became Japanese subjects for all practical purposes. Dr. Verbeek was peculiarly situated. He had lost his Dutch nationality by non-residence, and he had not lived long enough in the possession of his original adoption, America, to become naturalized there. Under these circumstances he sought to become naturalized in Japan, where he had resided for about thirty years, and where he is beloved and respected by all classes. But

years is both useful and interesting.

years is both useful and interesting. In 1871, the year in which there was the largest number of unoccupied houses was 1883, when it was 444; and the year showing the smallest number was 1887, when the number was 127; the year it was 252, and this year it was 230. The rental assessment for the present year is \$266,949, as against \$255,027 last year and \$71,072 in 1881. In the villages the largest number of stands at \$200,629, as against \$168,575 last year, and \$70,197 in 1881. The largest increase is in the Hill District (the Peak), which now stands at \$101,000, an increase of \$80,000 on last year, and times as much as it was ten years ago. It returns as a whole show a record of steady progress on which the Colony has good reason to congratulate itself.

[illegible][illegible]

the past have cost the Colonies much more than the course actually pursued, assuming the original amount of the contribution to be exact and the starting point to be secure and the Colonies to be able to pay the same amount for many years, whereas the revenue has increasing all the time, and the increase in the contribution now enforced long way from restoring the ratio. The third alternative suggested by Sir Thomas Jackson, that the Colonies should be referred to a Committee of the House of Commons to determine in what manner contributions ought to be paid, if such a Committee could evolve a plan of distributing the amount of the contributions to be made, the Colonies would be able to pay, if not in full, it would be an excellent thing, though we can hardly hope that it would remove the Colonies from the position of an actual saving to the Colonies. So as the actual amount is arbitrarily determined by the House of Commons, it is not sure to be regarded, as it must not necessarily be in all cases of taxation without presentation. This discontent is heightened by the inconsiderate action of the War Office in regard to its demands for land. The Government recently has asked the Colonies to give Singapore in which it is laid out that not only must the Colony cede, but wherever demands may be made upon Crown land, but must also acquire by lease any privately owned land that the local Authorities may wish to cede, and the same Government has laid out a road from Hongkong if occasion arose where the Colonies' resources could stand the seizure, but in this case the Government has made no provision for the military purposes. It is bad enough, however, to have so valuable sites kept lying idle by the War Office, and the point is one to be taken into consideration by the Government in the military contribution. If the principle is to be adopted that every Colony as far as its resources permit, to pay a whole cost of its garrison, some check at least to be imposed on the exorbitant demands of the War Office in regard to land.

THE MERCHANT SHIPPING CONSOLIDATION BILL.

The Merchant Shipping Consolidation Bill is now before the Legislative Council, if the members of the Chamber of Commerce are really in earnest in their desire for establishment of a Harbour and Light House Board, it is time for them to form a committee to consider the Bill, and to make Ordinances to consolidate and amend the relations to merchant shipping, the duties of the Harbour Master, the control and management of the waters of the Colony, and regulation of vessels navigating the same. The duties of the Harbour Master of the Colony ought, we contend, to be entrusted to a representative body, as also management of the fund derived from the dues. The latter-point is especially important, and whether the question of the Harbour Master is raised or not, or not it is to be hoped that the opportunity of having the agreement with regard to Gap Rock light dues clearly set out in the Ordinances will not be lost. It is provided by Section 38 that vessels carrying a cargo of opium shall pay such light dues as may from time to time be fixed by order of the Governor-in-Council provided that until such order is made, sounded, or varied the order given in schedule shall apply. The order referred to is the one which has been in force since the time that the Government took possession of the Island. There is no stipulation for the reduction of the amount when the Gap Rock light dues have been paid for, although this was the dispute underlying when the additional one-half cent was imposed. We know from the evidence of the Harbour Master that the Government verbal understanding when the light dues have come to be looked upon as a valuable addition to the general revenue of the Colony, so it is to be feared will not be carried out. The Government will convey the idea of intended permanence for it is there contained that the powers provisions contained in Sections 32, 33, and 34 in respect of light dues shall continue to apply. The light dues shall continue to be levied on the same basis as the Ordinance upon Gap Rock. Understanding being that the dues of the Gap Rock light are only to be levied for a limited period, it is very dangerous for the Legislative Council to confer on the Government the power to vary the dues in perpetuity. A future Government, provoked by the understanding existing in the Ordinance, was first imposed, may not naturally ask why the power conferred by the Ordinances was not subjected to limitation, and may not be satisfied that the Government should attach more importance to the fulfilment of the law than to a verbal understanding alleged to exist but of which no satisfactory written proof is in existence, it would be to assume him of breach of faith. It is the duty of those interested to see that this Ordinance is not a stroke of a pen, but a living thing. And there is another point upon which the Ordinance requires amendment; that of the light dues being fixed by the Governor-in-Council they ought to be fixed by the Legislative Council. The change was made originally in the Ordinance in order to save the Government the expense of the rate of taxation; that should be right and duty of a popular and representative body, in the case of Hongkong Legislative Council, which though not a representative character has the participation of the Colonies in the Government of the representative assemblies in the construction of the Government of the Empire. It is merely as a question of principle, however that we advocate the transfer of the power of taxation, in respect of light dues, from the Governor to the Legislative Council, but because there would be more security for a reduction of the dues to the Government if they were under the control of the Council. The unofficial members would of course be liable to be outvoted, but if it were made a matter of principle, and a point, the Government would in times of compulsion be compelled to yield to the force of public opinion.

SPECULATION V. GAMBLING.

C. Daily News makes the following comment:—We learn with satisfaction that our Government are taking up the question of the recent outbreaks in China, and that we have secured the satisfaction that the Government has put the three following to the T'ung-ri Yamen—

1. Why was not the recent Edict despatched through the Chinese Legation at Peking?

2. Why was the Wai-wei magistrate who did not degrade, while his superiors who would have degraded?

3. Why is the punishment of the guilty at delay?

The answer stated that the opening of Huanan, at present practically closed, and is the cause of all the opposition to foreigners in one of the points to be decided on in settlement of the present troubles—Is the opening leave the same paper addressed to Foreign Powers having treaties with China have unanimously determined that Great Britain will not be admitted to be admitted to the T'ung-ri Yamen by Sir Waihsien, and they are decided that Huanan opened, and shall cease to be the fault of the British, and shall be decided on such anti-foreign policies which are to be decided on by the Chinese people. If demands are not granted promptly and Huanan is to be used, and for this purpose it is to be freed all the Chinese people. No non possumus is to be accepted, no reservation will be allowed. The Government have determined that the treaties existing between foreign life and society everywhere are to be observed, and that the Chinese people are to be observed, and if diplomacy fails now, the Government is to speak in words that the Chinese are to be able to disregard.
